Keith Murphy says "I started a small one-day festival in Brattleboro VT, called the Northern Roots Festival, in conjunction with our music school (the Brattleboro Music Center) in 2007. Becky and I have also run a summer teaching weekend just outside town that we also called the Northern Roots Weekend. As with so many events of this kind, we couldn't have accomplished these without the help of many people. I always think of them as our Northern Rooters".
