“For so many years now, Julie Lyonn Lieberman has been the queen of fiddle music. I remember her name from my days at The Strad in the 1980s and she has continued to cement her position in helping to maintain fiddle traditions, collecting folk music, working out the different styles and techniques, and performing them with knowledge and perception. This new book is an extraordinary enterprise in which she has collected thoughts from many fiddlers of different genres, interviewing them and giving generous amounts of space to their explanations of rhythmic phrasing (Tom Morley), rhythm chord patterns (Darol Anger), complicated syncopations (Alan Jabbour), and the vocal and percussive improvisations of the Roma (Chris Haigh). The wonderful and possibly more familiar Roby Lakatos writes on his method of jazz and gypsy fusion.

But these additions are a fraction of this generous enterprise, in which Lieberman valiantly goes through every possible style of fiddle music (to take a handful: bluegrass, Cajun, Cape Breton, Galician, Swedish, East Indian). She introduces their histories and styles, and explains how to achieve the sound through the amount of pressure on the string, bowing idiosyncrasies, the specific improvisation common to a particular style, types of vibrato and slurring. —**STRAD MAGAZINE**

“Lieberman presents a veritable who’s who of fiddle players that philosophize on the essence of their music. Reading *The Contemporary Violinist*, you are struck by what a kaleidoscope of string styles the 20th century has conjured up.” —**AMERICAN STRING TEACHER**
